

BOLSHEVIKI PENETRATE THE FOE'S LINE IN CRIMEA

TWELVE TEAMS WAIT REFEREE'S WHISTLE IN Y. M. C. A. DRIVE

Greatest Membership Cam- paign Will Start on Tuesday.

(Contributed)

The organization for the "big push" of the Y. M. C. A. has been completed. Plans are all laid and on Tuesday the big offensive will be launched, the biggest in the history of the local Y. M. C. A., for this offensive is the annual membership campaign of the Y. The campaign will be conducted by an Athletic director who will have working for him, two Head Coaches, one for the eastern teams and one for the western. Teams of what? Oh, yes. Football teams, we almost forgot to state that. Each head coach will have charge of six league teams—teams that can hit the line and hit it hard. Teams that can get there with the punch when the punch is needed and it will be mainly a matter of chance or luck for the winning team for each is composed of stars of the first magnitude, who will fight till the last whistle blows and the referee calls the game.

The East will be represented by Harvard, Yale, Princeton, Cornell, Army and Navy, while the West will put into the field Minnesota, Wisconsin, Illinois, Michigan, Chicago and Notre Dame. In addition the ladies participating in a big game of football. Watch for the fun. When they get started there is always something doing. They will put teams in the field representing Vassar and Wellesley for the East and Rockford College and Frances Shimmer school for the West. Those who doubt the advisability of the ladies using the Y, who doubt the value of the training they receive and the benefits they derive should get busy and inform themselves on the matter.

As for the men and boys—well, the place has been operating for a good many years and if it wasn't worth while it would have gone to the discard long ago. But the very fact that it is today going stronger than ever certainly proves that it is ignorance alone that says the Y is not the most valuable asset the city of Dixon possesses. But we are getting away from our subject which is the membership campaign, not that it does any particular harm but we want to tell the world about this affair at the present time. The organization of the campaign is as follows:

SOVIET WREST CONTROL FROM GEN. WRANGEL

Anti-Red Forces in Crimea in Serious Condition.

By Associated Press Leased Wire
Paris, Nov. 13.—The Russian Soviet forces have won control of the Isthmus of Perekop, leading to the Crimean peninsula, and the situation of General Baron Wrangel, the anti-Bolshevik commander in the Crimea, is extremely bad, according to dispatches received today by the French foreign office. The allied fleets, it is stated, are preparing to aid in the evacuation of certain districts in the Crimea.

The Bolsheviks have advanced beyond Perekop, the advances show and have captured twelve million cartridges, 18 cannon, one tank, three armored trains, 10,000 shells and much transportation material.

EVACUATE SEBASTOPOL.
By Associated Press Leased Wire
London, Nov. 13.—Sebastopol is being evacuated and British authorities are requisitioning ships in Constantinople to take refugees from that city says a dispatch to the Exchange Telegraph company from the Turkish capital.

Eighty thousand persons in Sebastopol seek transportation from the city, says a Constantinople dispatch to Reuters Limited.

General Baron Wrangel's situation in northern Crimea is said to be desperate.

President-elect Is Kept Indoors Again Today By Cold Wind

By Associated Press Leased Wire
Point Isabel, Texas, Nov. 13.—Kept off the Point Isabel fishing grounds by a cold norther and virtually marooned on the land side by almost impassable roads, President-elect Harding remained at his seashore cottage here today, winding up his vacation week with a complete rest. He hopes to get out for more tarpon fishing Monday if the storm blows over again on Tuesday he expects to play a game of golf at Brownsville when he motors there to meet Governor Hobby of Texas. He probably will remain there over Tuesday night and will Wednesday morning leave on a special train for New Orleans to sail on a voyage to Panama.

The President-elect's special train is due at New Orleans at 10 o'clock Thursday morning and he will make a stay of about five hours during which he will speak at a luncheon of the Association of Commerce. If necessary his steamer will be held beyond the hour set but steamship company officials hope to make the departure at about 3 o'clock Thursday.

Double Amount of Cruelty; Dry Era Said to Be Cause

By Associated Press Leased Wire
Chicago, Nov. 13.—Statistics showing that complaints of cruelty to wife and children have increased 238 per cent since prohibition arrived and more rapidly in the last six months than during the first half of the year is stated in the annual report of Albert E. Webster, superintendent of the Juvenile Protective association, made public today.

"Men who formerly drank heavily," the report reads, "have undergone a reaction which expresses itself in surliness or abuse of the family."

Reprisal Threats Made in Cork Today

By Associated Press Leased Wire
Cork, Nov. 13.—Reprisals have been threatened in connection with the abduction of Thomas Griffith, a warden of the Cork jail, who was kidnapped Oct. 10 while on the way to his home. The following notice was found posted today on the front door of the offices of the Cork Examiner:

"Final notice! If Warden Griffith is not released within 48 hours, Cork will remember his abduction."

William R. Kehr Died Early Today

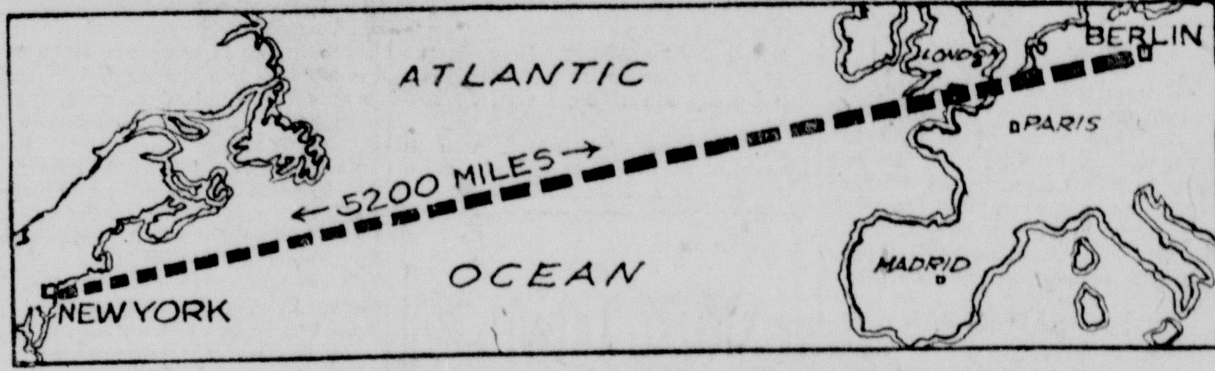

William R. Kehr, father of W. R. Kehr, Jr., died at his home in Chicago early this morning at the age of 72 years. The body will be brought to Dixon for burial, arriving at 1:11 p. m. Monday, and the funeral party will go direct to Oakwood cemetery, where Rev. J. M. Tidball will have charge of the services. W. R. Kehr, Jr., son of the deceased, is the husband of Louise Dege.

Mrs. Harold Reis and daughter, Arlene, visited in Dixon yesterday on their way home from the Reis-Owens wedding at Appleton.

BERLIN - NEW YORK IN 36 HOURS BY PLANE! Sensational Flight in Super-Craft Planned By Germans

Berlin—Here is the giant Zeppelin airplane with which a flight from Berlin to New York is soon to be attempted. The plane is built entirely of metal—duraluminum. The crew consists of two pilots and two mechanics and there's room for 18 passengers. An idea of the size of the plane can be had by counting the people standing from tip to tip and by noticing that the wheels of the plane are as high as a man. Experts expect the plane to make the Berlin-New York flight in 36 hours. The route which it is proposed to take would be about 5200 miles long.

WILSON NAMES NEW SHIPPING BOARD MEMBERS

Approval By Congress Not Considered Probable.

By Associated Press Leased Wire
Washington, Nov. 13.—Reappointment of Rear Admiral W. S. Benson as chairman of the shipping board was announced today at the White House.

At the same time announcement was made of the appointment of six other members of the new board authorized by the merchant marine act.

The other six members are: Frederick I. Thompson, Alabama, Democrat, term of five years.

Joseph N. Teal, Oregon, Democrat, term of four years.

John A. Donald, New York, Democrat, term of three years.

Chester H. Rowell, California, Republican, term of two years.

Guy D. Goff, Wisconsin, Republican, term of one year.

Charles Sutter, Missouri, Republican, term of one year.

Admiral Benson is appointed from Georgia as a Democrat and his term is for six years. The appointments are recess ones and the nominations under the law are subject to approval by the senate.

Under the law not more than four members of the board can be of any one political party. Four Democrats and three Republicans have been appointed, but in some quarters today some doubt was expressed whether the Republican senate would approve this political alignment in view of the fact that a Republican administration will come into power on next March 4th. It was regarded as possible that action on the nomination would be held up until after March 4.

Entertainment for Elks Monday Night

A special entertainment is booked for Monday evening at the Elks club for the membership. The entertainment committee this morning booked a program of Chicago vaudeville numbers to provide the entertainment on Monday evening. The house committee will also add to the evening's enjoyment with a social session.

Jacob Levi, North Dixon Man, Called

Jacob Levi, a resident of Dixon for many years, passed away at his home, 409 Lincoln way, shortly before 5 o'clock this morning. He had been ailing for several weeks with a complication of troubles which resulted in his death. The complete obituary and funeral arrangements will be announced Monday.

Give Up Hope for Lost Plane Crew

Green Bay, Wis., Nov. 13.—Coast guard officials here this morning expressed the opinion that the crew of the missing seaplane, H 8 2 L, lost in Lake Michigan had perished. They said that boats which had been searching for the crew had returned to port. Lake Michigan was still a choppy body of water this morning.

BERT KESTED SALE.

Attention is called to the Bert Kested sale in this issue, which takes place on Tuesday, Nov. 16th. An error was made on his sale bills, stating that the sale was on Tuesday, Nov. 15th; the sale will be on Tuesday, the 16th, and not on the 15th.

Rockford 706 Team

Will Meet American

Legion Here Sunday

Tomorrow afternoon, the star 706 football eleven of Rockford, with a large following of their supporters will be in Dixon and engage the local American Legion team at Brown's field. The game should prove one of the best of the season. The visiting team has a reputation for being much faster than any other northern Illinois aggregation. They do not claim to have weight alone to make their gains, but depend largely on their speed.

The 706's have been putting in some hard practice work this last week for Sunday's game, according to reports from that city, and are going to make a special effort to disrupt the endeavors of some of the local players who have been responsible for breaking up games with long runs. The teams are quite evenly matched and should draw a good crowd of spectators.

Will Test Ruling

Against Home Brew

By Associated Press Leased Wire

Columbus, O., Nov. 13.—A test case on the recent ruling of Prohibition Commissioner Kramer prohibiting the sale of malt and hops to any one except bakers and confectioners, to have been filed in the United States court here yesterday, probably will not be brought until Monday, it was said today by Clark C. Doughty, local dealer.

who said he will bring the action. Malt and hops dealers of this city will shoulder the expense of the action.

Former Dixon Lady

Dies in Los Angeles

Dixon friends of Mrs. S. J. Carr, for many years a resident of this city, have received word of her death at her home in Los Angeles, Calif., Monday.

Mrs. Carr was an aunt of Mrs. John Laing and was also related to the Johnston family of North Dixon.

BOY BROKE ARM.

Clark, the youngest son of Mr. and Mrs. H. B. Huxett of Factory street, fell while playing and broke his left arm. He is resting comfortably at present.

Today's Market Report

(By Associated Press Leased Wire.)

General Rush to Buy Wheat Today

By Associated Press Leased Wire

Chicago, Nov. 13.—There was a general rush to buy wheat at the start today by commission houses which disclosed a badly oversold condition and prices advanced sharply to Dec. 1 in the lead. After starting 1/4 to 1/2 above yesterday's finish with Dec. 1 1/2 to 1 3/4 and March 1 1/2 to 1 3/4, the market underwent a slight reaction.

Trade in corn was light and of local character. Short covering in sympathy with the upturn wheat sent the market up but the best prices were not maintained due to increased pressure. After starting unchanged to 1/2 higher, with Dec 7 1/4 to 7 5/8 and May 7 3/4 to 8 1/4, prices suffered a setback.

Oats were in sympathy with other grains and opened 1/4 to 1/2 cent higher with Dec 48 1/2 to 49 1/2 and May 53 1/2 to 54 1/2.

Provisions were firmer with grains and hogs.

The undertone in wheat was strong and the spread between Dec. and March widened out to around 10, the widest in more than two weeks. The finish prices were up 1/4 to 1/2 cent with Dec. 1 1/2 to 1 3/4 and March 1 1/2 to 1 3/4.

Corn was under pressure and rally toward the close brought prices up near where they finished. The close was unchanged to 1/2 cent higher with Dec. 7 1/4 to 7 5/8 and May 7 3/4 to 8 1/4.

Weekly Grain Review.

By Associated Press Leased Wire

Chicago, Nov. 13.—Downward plunges taken this week by grain prices have seldom if ever been so steep in an equal length of time. Financial stress particularly as shown in demoralization of foreign exchange has been one of the leading apparent factors. Compared with a week ago wheat this morning was 20 1/2 to 24 1/2 lower, corn off 8 1/4 to 8 1/2 and oats down 4 1/4 to 5 1/4. Net changes in provisions ranged from 5c decline to 15c advance.

Barish sentiment regarding wheat acquired special impetus from views expressed by Julius Barnes, former director general of the United States grain corporation, that wheat producers had escaped the full effect of devaluation as contrasted with cotton, sugar and coffee. Subsequently big new breaks in exchange rates on Europe attracted eager attention and talk was current that domestic curtailment of credit would force much grain on the market, notably in Kansas.

Sudden rallies followed word that for the first time in nearly two months Great Britain had done some buying on this side of the Atlantic and that no extensive calling of rural loans in Kansas was looked for. Unfavorable opinions of the general business outlook however, proved subsequently more than an offset, despite unusual meagerness of receipts and of offerings from the country.

Corn and oats were swayed by the action of wheat.

Provisions weakened in sympathy with grain and was checked somewhat by reports of an eastern demand for lard.

Chicago Livestock.

By Associated Press Leased Wire

Chicago, Nov. 13.—Cattle—Receipts 5000; compared with week ago: best corn fed steers around steady; others mostly 25c to 50c lower; week top 17.50; bulk native 10.00 to 14.00; bulk western 8.25 to 10.50; butcher cattle unevenly 25c to 75c lower; canners and cutters steady to 75c lower; light and handy weight calves strong to 25c higher; heavy shipping calves 1/2 lower; stockers and feeders steady to 25c lower.

WISCONSIN-ILLINOI GAME IS BIG EVENT ON WESTERN PROGRAM

Illinois' Chances for Big Ten Title Are at Stake.

By Associated Press Leased Wire

Chicago, Nov. 13.—Illinois today faces Wisconsin at Madison in the most important contest of the day's conference games, with Wisconsin the victor so that they may meet Ohio State next Saturday with their slate still clean.

Coaches of both teams stated today that their squads were in excellent physical condition and unless some of the regulars are injured early in the game, the battle should be one of the hardest fought of the season in the west.

Chicago battles Michigan at Ann Arbor for the first time since 1904 and Purdue plays Northwestern at Evanston in other conference games. Indiana goes out of the conference to play Notre Dame, while Ohio State is idle.

Illinois Undefeated.

Ohio State and Illinois are each undefeated, with four victories, while Wisconsin has lost to Ohio State. A victory today for Wisconsin and again over Chicago a week later would give the Badgers standing of four games won and one lost. Illinois would go into the Ohio State game with the same standing. Victory for Illinois over Ohio would give them a mark of five and one, however, with Ohio and Wisconsin each having one less victory. On the strength of this standing Illinois could claim the championship.

Maroons Crippled.

Chicago can only be given an outside chance to beat Michigan, their admirers admit. Injuries have shattered the chances of the Maroons, who must play brilliant football to entertain hopes of victory.

The Northwestern-Purdue game is expected to be close for the homecoming spectators but has no bearing on the championship race. Notre Dame's battle with Indiana at Indianapolis will decide the championship of the Hoosier state.

Minnesota was at Iowa City where the homecoming crowd hoped to see Iowa repeat its feat of the last two seasons of defeating the Gophers, Iowa defeated Northwestern last week.

Effort at Suicide Was Not Successful

By Associated Press Leased Wire

Peoria, Ill., Nov. 13.—William Keys, aged 69 years, tried his best to commit suicide today but failed. He placed the muzzle of a revolver to his right temple and fired a bullet through his head. When the doctor came Keys was conscious. He talked the matter over with the physician while the latter dressed his wound. Examination showed that the bullet went too low to penetrate the brain and too high to fracture the jaw bone.

PEACE IN BASEBALL WORLD; LANDIS HEADS SUPREME COMMISSION

Famous Federal Jurist Accepts Offer of Big Leagues.

By Associated Press Leased Wire

Chicago, Nov. 13.—Peace resigned in baseball circles today following yesterday's agreement between the opposing factions in the organization of the game. The sixteen clubs of the major leagues were in accord on every issue, which left the same eight clubs in the National and the same eight in the American league and the threatened war was averted.

Judge Kenesaw M. Landis of the federal court, Chicago accepted the chairmanship of baseball and to act as a committee of one as a final court of appeal in all matters of dispute between the major leagues and any minor league which may join the majors in reorganizing the game.

Landis Takes Job

Judge Landis will remain on the bench. His salary there is \$7,500 a year. He stipulated that this sum should be subtracted from the \$50,000 a year offered by the baseball men and so his salary as chairman of the national pastime will be \$42,500. His term of office is seven years.

The minor leagues are invited and expected to join the majors under the Landis banner, but whether they do or not the matter is settled as to the major leagues.

Chicago will be headquarters for the baseball commission and officers will be named immediately. If second and third members are chosen for the commission, it is virtually certain, according to club owners, that Judge Charles A. McDonald of Chicago will be one of them.

ST. JAMES MISSIONARY—

Notwithstanding the cold weather a most delightful and instructive meeting was held at the hospitable home of Mrs. Chris Bothe Thursday, Nov. 11th, with an attendance of twenty-four members and guests. As this was an all-day meeting a sumptuous breakfast was served, including roast chicken, with many other dainties. Mrs. Bothe gave ample proof of her skill in the culinary art. Victrola music was a feature of the noon hour.

At 2 o'clock the meeting was opened by singing, "Saviour, Like a Shepherd Lead Us." The Bible lesson was taken from Psalms 65 and 136, was read by Mrs. Missman. The meeting was led in prayer by Mrs. Geisler. The Scripture lesson was read by Mrs. P. Duffy, the roll call and minutes by Mrs. Luther Burkett.

A reading, the discussion of the third constitution, was given, the constitution being adopted.

A reading, "The Spirit of Thanksgiving," was given by Mrs. Martha Shippert and was much enjoyed.

MYSTICS IN GOOD MEETING

The regular meeting of the Mystic Workers last evening was of more than ordinary interest. Mrs. Clara L. Cookson, of Chicago, District Manager of the Mystic Workers, was present and explained the various policies which are now being written by the order, being on a more adequate rate than formerly were written. She described very minutely the work now being done over her district. A contest is being started between the lodges of the various cities in her jurisdiction. Dixon has been put in the contest with Fulton, Sterling, Rock Falls, DeKalb, and Elgin. The contest will close next March and suitable prizes have been put up for the winners. The local lodge is being divided into two teams, under direction of competent captains and Dixon will make a determined effort to capture the first prize. William Slothower was elected last evening as local deputy. Four members of the Rochelle lodge and one from Danville were present at last night's meeting. Following the business session the social committee served light refreshments.

TO ATTEND ASSEMBLY—

The Rebekah State Assembly to be held three days next week at Springfield will be attended by a number of the Dixon representatives of the order, including Deputy Grand Master C. A. Robbins, Mrs. Robbins, Miss Elia Kentner, Miss Edith Missman, Miss Dolly Fauth, Mrs. Irene Nelson, Miss Clara Hartzell, Misses Pauline and Bertha Brass. The Dixonites expect to leave Sunday for Springfield. The grand lodge will hold its sessions in the State House while the ladies will hold their sessions at the Baptist church.

Deputy Grand Master Robbins, of Dixon, is in line for the Grand Master's chair. Mrs. Robbins is a member of the state finance committee. Mrs. Nelson is a delegate from Minnie Belle lodge. An altogether entertaining and interesting meeting is anticipated at the Assembly.

VISITED KINDERGARTEN—

A number of the mothers of the little tots attending Kindergarten visited the school yesterday. It was "lunch" day and each little one had something to contribute toward the luncheon which each week is greatly enjoyed by the children. The work accomplished by these little folks is wonderful and a visit to the Kindergarten is a revelation in what may be gained by doing a little each day. The teachers of the Kindergarten, Mrs. Harold Brierton and Miss Goldie Brierton are to be congratulated on the interest and pride each child takes in his or her work in the school.

WERE MARRIED, SEPT. 25—

Announcement has been made of the marriage of Miss Mildred Backes, daughter of Mr. and Mrs. Stephen Backes, of 164 American street, Freeport, to Clifford Cook, son of Mr. and Mrs. William Cook. The young people were married at Oregon, Ill., on Sept. 25th, and had kept the event a secret even from their most intimate friends up to the present time. The young people are at home at 224 Ben-

ton street, Freeport. They both have many friends who extend congratulations.

SUPPER ATTENDED BY 300—

Mrs. Glenn Coe closed her year's incumbency as Worthy Matron of Dorothy Chapter, O. E. S., with a record of taking into the order 105 candidates, the largest number taken into the order within one year, in the history of the chapter.

The work last evening was splendidly reproduced by the Past Worthy Patrons and Past Worthy Matrons.

The scramble supper following the exemplification of the work in the afternoon was largely attended, about three hundred being present. A delicious supper was served, the scene being a pleasant and animated one, the work following.

Mrs. Coe, the Worthy Matron was presented with a handsome cut glass rose vase, by the class of 1920 candidates.

The gift was presented by the Mayor of the city, Mark D. Smith, in a few appropriate words, voicing the sentiments of all present in the appreciative words to Mrs. Coe, thanking her for her splendid and tireless work for the good of Dorothy Chapter. Mrs. Coe expressed her thanks in a graceful little talk.

The pleasant evening was concluded with an enjoyable dance.

TO MEET MONDAY EVENING—

The Golden Rule and Young Men's Alliance Classes of the Grace United Evangelical church will hold a joint class meeting at the church Monday evening. A scramble supper will be enjoyed and at 7:30 a business meeting will be held. After the business meeting Mr. and Mrs. Herbert Greig who sail soon for the old world, will address the company on their work in the mission fields in West Africa. These addresses are sure to be full of entertaining information and all members and friends of the church are cordially invited to hear these earnest young people who have spent years in the work.

GAVE BIRTHDAY DINNER—

Mrs. Charles Pyfer Wednesday entertained with a birthday dinner at her home, at noon the following ladies: Mrs. Jules Brechon, Mrs. Jesse Lautzenheiser, Mrs. John Conroy, Miss Katherine Fuestmaier, Mrs. Lloyd Hoyle, and Miss Nellie Fuestmaier. The birthday anniversaries of Mrs. Pyfer, Mrs. Lautzenheiser and Miss Katherine Fuestmaier all occur within a few days of each other. A tempting dinner was enjoyed. The hostess received a number of beautiful gifts in memory of her birthday.

ATTEND CAPERNAUM SHRINE—

All members of Corinthian Shrine, No. 40, White Shrine of Jerusalem are invited to attend a meeting of Capernaum Shrine, No. 4 of Freeport, Wednesday evening, Nov. 17, 1920. This meeting will be in honor of the Past Worthy High Priestess and Past Watchman of the Shepherd's and will be a most interesting meeting. Any who are planning to attend, please notify Mrs. Cora Leake as soon as possible.

AT STERLING HOME—

Mr. and Mrs. Harry Ford entertained a number of Dixon high school students at their home in Sterling last evening. Singing, dancing and refreshments were enjoyed during the happy hours. The following were the guests: Charlotte Johnson, Esther Sumard, Ruth Huggins, Messrs. Mark Eckart, Teddy Hintz, Lawrence Vaile.

Mattings on floors is always cool looking and fairly easy to care for but if it becomes spotted with grease most grease removers seem to leave the straw unimpressed.

Very hot water, a five-and-ten-cent store nail brush, castile soap and a little salt are wonderful grease-removing agents for matting.

Dissolve the salt in the water. Wet the brush in the salted water and rub on the soap. Now scrub the spot. Add more soap as necessary and continue to scrub the place until the spot disappears. Rinse with a clean cloth dipped in clear water and rub dry with another clean cloth.

Menu for Tomorrow.

BREAKFAST—Stewed prunes, creamed dried beef, baking powder biscuits, coffee.

LUNCHEON—Eggs in potato cases, beefs in vinegar sauce, brown bread and butter, peach preserves, tea.

DINNER—Stuffed pork chops, scalloped potatoes, mashed turnip, cabbage and celery salad, grape sponge, coffee.

My Own Recipes.

2 potatoes
4 eggs
4 tablespoons grated cheese
2 tablespoons butter
salt and pepper

Use large smooth potatoes. Scrub well and rub with a little butter. Bake in a hot oven till done. Cut in half lengthwise. Scoop out the potato without breaking the skin. Put the potato through a ricer. Season with salt and pepper and melted butter and beat until light. Add a little hot milk if necessary, but the potato should be quite dry. Line the shells with the mashed potato. In each potato case drop an unbeaten egg. Dot with but-

ter, sprinkle with cheese and brown in a hot oven.

STUFFED PORK CHOPS

4 chops
1½ cups stale bread crumbs
salt and pepper
hot water.

Have the chops cut 1½ inches thick. On the edge opposite the bone make a deep decision as V-shaped as possible with the point of the V on the edge. Fill the cavity with plain stuffing made of the bread crumbs seasoned with salt and pepper and moistened with hot water. Pin the edges of the chop together with toothpicks. Put in a slightly greased iron frying pan and bake in a hot oven for 45 or 50 minutes.

Not letting your right hand know what your left hand is doing is anything but good ethics in a kitchen—you are apt to get burned.

—The Masterful

One of the world's most extraordinary voices. Both a bass, rich and full,—and a baritone, brilliant, scintillating.

Hear Middleton, the masterful basso of the Metropolitan Opera Company, New York.

Monday Night--Methodist Church

Some artists are great of voice. Others are merely great of stage performance.

To judge how truly great is Arthur Middleton, hear him outside of his physical presence. Hear his voice as it is literally RE-CREATED by the New Edison. Only then will you be

able to appreciate fully its sublime beauty.

It is actually true that thousands of music lovers have heard Middleton publicly compare his voice with the New Edison's RE-CREATION of that voice, and could distinguish no difference.

MEXICAN STABILITY

Evidences accumulate that Mexico
is settling down into peaceful, safe,
and stable life. The latest testimony
to this effect comes from the Chamber
of Commerce of the United States. It
reports that more than a hundred
American business houses have begun
business in Mexico in the last two
years. Besides this, numerous Amer-
ican manufacturers and merchants, as
well as Chambers of Commerce and
other associations are making inquiry
concerning the Mexican credit situa-
tion, the volume of business, the at-
titude of American concerns and other
important phases of the general trade
situation across the Rio Grande.

The American Chamber of Com-
merce in Mexico City reports that
banks and commercial agents report
that in every part of Mexico business
is better than it ever has been, and
that Americans in Mexico feel great-
ly encouraged.
If this testimony had come from
political sources likely to be influ-
enced by the present Mexican govern-
ment, it would be necessary to dis-
count it, but coming, as it does, from
American business men located in
Mexico, who are reporting for the
benefit of their colleagues in the
United States, it must be accepted as
representing actual conditions.

The recognition of the present
Mexican regime by the United States
government requires only such a
demonstration of stable conditions as
this report seems to indicate.

FALLEN LEAVES

Don't burn the leaves!
To do so means to destroy the most
valuable of fertilizing ingredients
known to man—nitrogen.

Beside being the most valuable, ni-
trogen is the most expensive of fer-
tilizing elements and most difficult to
secure in commercial form.

Flower gardens, rose bushes, straw-
berries, raspberries, fruit and even
shade trees should receive a mulch of
the leaves, as they fall from the trees.
Be careful that the mulch is not raked
too high about the trunk of the tree
as rats and mice sometimes make
nests in the leaves and during the
winter, when food is scarce, gnaw the
green bark for food.

If there is a great abundance of
leaves rake them on the garden this
fall, any depth, and then turn them
under in the spring. If this is contin-
ued each year the garden will need
little else for fertilizer.

"WE"

November 21, many cities in the
United States will observe the 300th
anniversary of the Mayflower Com-
pact. The Compact, signed by the
Plymouth settlers, contains only
about 200 words, but as America's
first expression of democracy, it ranks
among the important American his-
torical documents.

When you read it casually, you may
wonder, perhaps, what there is in it
worth celebrating.

Its main significance lies in the use
of the words "WE" meaning the peo-
ple.

"We," it reads, "whose names are
undersigned . . . do, by these
presents solemnly and mutually, in
the presence of God, and one another,
covenant and combine ourselves to-
gether in a civil body politic . . ."

This was the first conscious expres-
sion of democracy by any people
through such use of the word "We,"
as distinguished from the autocratic
"I" or "We" of kings.

"I," wrote King James, handing
down a charter for Virginia in 1609.
"I, James, by Grace of God, King of
England, Scotland, France and Ire-
land," etc.

The Virginia charter was a consti-

tution and by-laws given to a people
by a king. The Mayflower Compact
was the first American charter made
by and for a people.

The word "WE" in the Compact
was a Declaration of Independence all
by itself. For that reason the anni-
versary of the signing of the Com-
pact is a notable event. When people
learned to say "WE" as against the
"I" of kings, they made themselves
free.

But it took humanity a long time to
learn to use the word in that way.

A FARCE

In December recurs one of the ex-
traordinary inefficient happenings
of the political machinery of this gov-
ernment.

It is—as The Searchlight so aptly
terms it—"the don't-care-a-dam-
nation" of Congress.

Meeting after the November elec-
tions, this holdover session of Con-
gress is composed of re-elected and
defeated members. The defeated mem-
bers "don't-give-a-damn" about the
public interest; the re-elected mem-
bers are so far away from another
election that they also "don't-care-a-
damn."

Into these d. c. a. d. sessions of
Congress are crowded a vast deal of
the vicious legislation that Congress
enacts. A congested calendar—due to
the short session—is combined with
an attitude of don't-care-a-damn on
the part of the "lame ducks" who con-
stitute such a considerable part of the
Congress, and the consequence is that
extravagance, pork, and political job-
bery of all kinds, runs riot.

The people, who have made their
mandate known in November, must
wait until this holdover session is
concluded before their will is felt. To
make matters worse, unless a special
session of Congress is called after
March 5 by the new President, the
Congress elected in November does
not take office until a year from the
December after the election!

Surely it is time to change such an
absurd practice.

SAVOR OF LIFE

The spectacle of a man sitting down
suddenly in the street makes nearly
everyone laugh. So does the rare and
delightful spectacle of a man who
chases his derby and steps on his
crown in his excited haste to recover
it.

Earnest persons disparage those
who do the laughing. There is a sim-
ilar disparagement of the elemental
sorts of movie comedy best repre-
sented by a sudden kick planted upon
the seat of the conventional human pants.
It is intimated that a truly high-
toned and cultured person wouldn't
laugh at anything like that.

Perhaps, some day, ordinary hum-
ans will be so oppressed by those who
undertake to improve them that they
will no longer be moved to mirth by
the loss of dignity of one of their
kind. When that time comes, each
might as well choose an epitaph, for
most of the savor of life will have de-
parted.

The exception will be those of such
cold and superior temperament that
quite naturally they greet such a
spectacle with uplifted eyebrows. And
one might as well be dead as like that!

THE RICE CROP

The country is learning two lessons:
1—Eat more rice;
2—Market rice efficiently.

Southern rice growers have raised
two billion pounds of the cereal this
year and can't sell it. Their predic-
ament is little if any less serious than
that of cotton growers, who have lost
millions through collapse of the do-
mestic market.

To remedy matters, the Southern
Rice Growers' Association has com-
pleted plans to establish complete
control of rice marketing. This will
be accomplished through contracts
with every rice mill in the country.
The millers will handle rice only
through the association. The milled
product will then be sold only at fixed
prices.

The best grade of rice will be deliv-
ered to wholesalers at 6 1/2 cents per
pound. Last year, the retail price
was around 14 cents per pound.

The association, representing 75 per
cent of the rice growers in Louisiana,
Texas, Arkansas and California, does-
n't hope to save the average grower
from loss. On the contrary, the aver-
age loss per acre on a crop of 1,372-
600 acres may run as high as \$15. But
without co-operative marketing pro-
ject, such as the association proposes,
the growers face ruin.

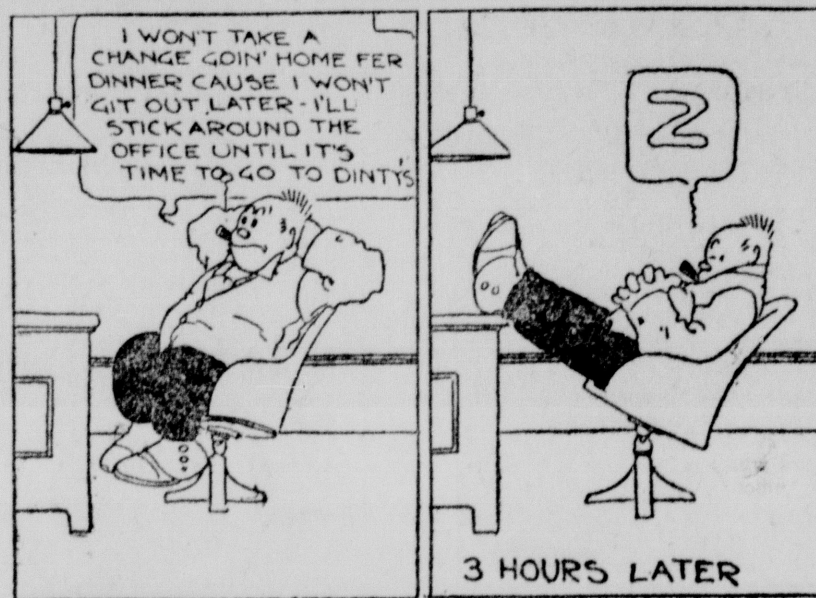

A campaign to educate American
consumers on the value of rice as a
food product will be launched along
with the marketing system.

COAL ENERGY

Everybody agrees the way to save
the world from the destructive conse-
quences of the war is to increase pro-
duction. But few agree about the
way to bring increased production
about. German technical experts are
working on a plan. They propose to
save Germany by electricity.

And if Germany why not the world?

WEIGH BABY

By Public Health Service.

The loss of a pound or two of weight
makes very little difference to the
adult, but it is a serious matter for
a young baby. A pound or two less
means as much to the baby as 10 or
15 pounds does to the adult, for it is
10 per cent more of his total body
weight.

If a baby fails to gain in weight for
several weeks, or loses a pound or
two, it becomes noticeable. But the
average daily gain in weight for the
first year is so small that it cannot be
detected without weighing.

When a baby fails to gain the re-
quired number of ounces for even one
week, it means that there is some-
thing wrong with him, or the food
Whatever it is, it should be remedied
at once. To delay until baby has lost
weight for several weeks, or until the
loss of weight reaches a pound or two
always lessens the baby's chances of
prompt recovery.

It is very much easier to keep a
young baby well and gaining steadily,
than it is to have him regain lost
weight, or to get him well again once
he has become ill. For these reasons a
mother should weigh the young baby
every week until he is nine months
old and after that at least every two
weeks until he is one year old. From
infancy until he enters school the child
should be weighed at least once a
month.

The average baby weighs a little
over seven pounds at birth. He dou-
bles his weight at six months, weigh-
ing ordinarily 14 pounds. He triples
it at one year, weighing about 21
pounds. It is because of his rapid
growth that a baby must have the
right kind of food and spend most of
his time sleeping.

The city plans at once building 260
dwellings. These are not to be built
by contract but directly by the city
itself, under the direction of the city
surveyor. The bricks will be furnish-
ed by the municipal brickyard, which
has been remodeled and the machines
of which are now all electrically run.
To hasten the work large wooden
workshops have already been erected
in which fittings are to be made and
in which, also, in bad weather the
reinforced concrete window sills, door
steps, etc., will be manufactured.

Curious idea these people have that
the way to get houses is to build
them! Here in Dixon we talk about

it.

Such is Life
BY O. B. JOYFUL.

"It would," observes a learned dig-
ger-up-of-prehistoric-bones, "surprise
modern man were he to meet with a
full grown specimen of the Dinos-
aure, or to suddenly come up with a
Dinornis."

"I'll say it would! A bunch of Din-
osaurus could make a flock of 1920 rep-
tiles look like angle worms. And you'd
think an ostrich was a baby chick
compared to a Dinornis, a bird larger
than a horse, and so heavy it couldn't
lift both feet off the earth."

You said something, professor, when
you said it'd be a considerable shock
to us to run across those prehistoric

monsters.

But that doesn't begin to compare
with the shock puny men of today
would give them.

Just imagine how surprised a Din-
ornis would be if it should stray into
your backyard and swallow a thimble-
ful of TNT!

And what would a gang of Din-
osaurus think if they charged on a
flock of tanks?

(This fast developing ability of
the human to battle with bird and
beast may explain why we now
have to dig for prehistoric bones.)

It is generally admitted that Solo-
mon was a wise person. But he
didn't know if the carmuretor was
something you ate or wore.

And such notable law experts as
Moses and Solon couldn't pull as many
legal tricks in a decade as the aver-
age police court lawyer does in one
morning's session.

Plato's admirers insisted he had
quite a few brains, but the poor fish
wouldn't have known how to call the
police if he had had a telephone in his
hand and a burglar breaking in down
stairs.

Aristotle, as smart as they made
him in his day, didn't know that a
person could get on a fullman at New
York and get off at San Francisco.
Why, he couldn't have told you that
Kalamazoo, Kankakee and Kokomo
were not the ingredients of a college
yell!

J. Caesar, who made the famous
Rome-run from all Gaul is not to be
compared with Mister Ruth who
makes home runs off all pitchers.
The further you dig into the prehis-
toric the more tickled you are that
you're living in 1920.

THE BOOK OF ANN.

JIM IS INTRODUCED TO HIS
FATHER-IN-LAW, BUT NOT AS
EXPECTED.

Jim junior certainly was the hand-
somest man I had ever seen. I thought
for the second time that evening, as
he stood, officer's cap in hand, and
greeted the beautiful young woman
everybody had expected him to mar-
ry.

Put to the test, Deborah Burns al-
ways proves a thoroughbred. She did
not show that she had a single emo-
tion, but I think she was very glad
that she was wearing the dancer's
make-up that night. It helped her,
doubtless, when she touched Jim's
hand.

Now that the dreaded meeting was
over, I heard them chatting, rather
formally, as they walked behind Bob
and me. The band, in the distance,
walked out one of the most alluring of
the waltzes. Dancing on the green
had begun, the rally was nearing its
close, Deb and Jim had met and had
survived. Ann had seen nothing, I de-
fied Miss Miller, in spite of the differ-
ence in our tresses, and all was well
with the Lorimers, in spite of the
ominous meaning I had read into that
night.

It was nearing midnight, and I re-
membered with vast relief that Aus-
tustus Best's train would soon carry
him out of town and that nothing ser-
ious had come of his visit. None of
us had seen him, except his ex-wife
and Bob. My husband had been ter-
ribly disappointed in the man.

"He may have been a genius once,"
Bob had reported to me earlier in the
day, "but whatever spark was in him

has burned out. He is so far down
that it is absolutely impossible to let
Ann meet him. Better for her to re-
member her father as he used to be.
Dope—my dear. It's finishing him."

As we approached the house, I re-
membered Mrs. Best's warning that
Ann's father never would set out on
his trip around the world without see-
ing his daughter. And I was so hap-
py to have the affair rounding to a
conclusion without a scene in public,
and the disgrace Mrs. Best had pre-
dicted, that my feet tripped along the
walk in time to the waltz measure
floating on the air.

And Deborah also came to her sense,
apparently, for presently she and
Jim waltzed past us, and ahead of us
to the house. Katherine and I, Bob
and Ann, reached the porch almost as
soon as they did.

A hubbub within the house, a
scuffling of feet, without the sound of
a voice, broke the sweet rhythm of the
waltz. We paused, for a moment, and
looked at each other. Then Bob and
Jim rushed through the door, and we
girls followed close behind.

And we beheld, on the landing of
the stairs, a most alarming spectacle.
It explained itself at a glance; a thief
was struggling between two detectiv-
es.

The face of the intruder was turned
from us. As he succumbed to the
combined strength of his captors, one
of the detectives reached into his coat
pocket and drew out—and held up for
all of us to see—Ann's gold mesh bag
containing its valuable horde of de-
bentures' rings!

"Oh Ann! How could you be so

careless!" I exclaimed. "Poor fellow!
If you had only hidden the things
properly, all this might have been
prevented!"

Bob, on a sudden, darted away from
us and up the stairs, calling back to
me:

"Take the girls away, Jane! Quick!
Before I could do this, I heard Jim's
wife cry:

"Father! Father! And away she
flew up the stairs.
Jim Lorimer, my adorable brother-
in-law, the soul of honor, stood for a
minute as if he was dazed. Finally he
pulled himself together and followed
his wife.

Then I, remembering that we had
guests, took Katherine Miller by an
arm and clasped Deb's soft fingers in
my own, and led the woman across
the lawn to the shelter of my side
porch.

Jim junior had been introduced to
his father-in-law!

Augustus Best had humiliated the
Lorimers, though not in just the way
we had expected.

Katherine Miller had sense enough
to go back to the dance in her Colum-
bia costume, and Deborah Burns bor-
rowed my black satin cape and went
home in her car.

And I sat down to wait for Bob.

BROTHERS CLASH AS HEADS OF OPPOSING TEAMS IN BIG GAME

Are Captains of Princeton and Yale Football Elevens.

By Associated Press Leased Wire

New York, Nov. 13.—The annual clash between Yale and Princeton was the outstanding contest of today's eastern football program, although several other battles of more than passing interest were scheduled. Dartmouth plays Pennsylvania at Philadelphia; Columbia meets Cornell at Ithaca; Washington and Jefferson invades Pittsburgh for its yearly battle with the Panthers; Harvard opposes Brown at Cambridge, while the Army and Navy elevens face Bowdoin and South Carolina respectively on Academy fields.

Princeton was favored in the wagering to win from Yale, while Dartmouth and Cornell were generally selected as victors over Pennsylvania and Columbia.

Princeton vs. Yale.
The Princeton-Yale classic drew more than 50,000 spectators to the Palmer Memorial stadium. The thrills of a gridiron rivalry that began 48 years ago, the spectacle of affluence, beauty and fashion from all parts of the country, the competition in songs and others, the unprecedented fact that the captains of the teams are brothers—the Callahans of Lawrence, Mass.—all these factors caused every seat to be sold long in advance.

Captain "Mike" of Princeton, and Captain "Tim" of Yale, meet in their last Yale-Princeton game, each determined to go down in college history as the leader of a winning eleven.

OUIJA TOLD WRAGG HE STOLE FURS AND HE ADMITTED THEFT

Walter Wragg of Dixon Now in Bureau Co. Bastille.

By Associated Press Leased Wire

Walter Wragg of this city is being held by the Bureau county officials for the theft of a three piece fur set from the home of Dr. J. P. Doran of Ohio, consisting of a fur coat, muff and neckpiece valued at about \$500. Wragg was arrested here last Friday and an account of his confession and the action of the prisoner as related in the Bureau County Republican, is as follows:

The ouija board played an important part Saturday in the confession of Walter Wragg, a prisoner in the county jail, who was arrested Friday at Dixon on a charge of stealing a set of furs and a lady's fur coat from the home of Dr. J. P. Doran of Ohio.

"Oh, God, tell us where the furs are," prayed Wragg again.

"Nope, that ain't right," Wragg interrupted.

"Dixon," ouija corrected.

"That's right! That's right," Wragg agreed.

Pressed by the sheriff to tell what had become of the stolen furs, Wragg said he had given them to his divorced wife at Dixon, but efforts of the Dixon police to find the former Mrs. Wragg were unsuccessful. It is said she is in Muscatine, Ia.

The furs were stolen from Dr. Doran's home at Ohio a week ago Saturday. Wragg had worked a few days on the farm picking corn, but when the wet weather set in, he left suddenly. The furs were not missed until Tuesday. Wragg was suspected, and, having given his address as Dixon, Dr. Doran, who is a deputy sheriff, went to Dixon and picked him up and brought him to Princeton.

At the county jail, Wragg offered to make restitution and was taken back to Dixon by Sheriff Spaulding and Deputy Sheriff Hopkins on Thursday. He led the officers for a mile or more through the Rock River bottoms and then threw a fit and was

board, upon which the sheriff's fingers rested.

"Yep, that's right," admitted Wragg with an air of profound awe and respect.

The sheriff tried to get Wragg to tell him what had become of the furs. Wragg insisted upon consulting the ouija board.

"Oh, God, tell us where the furs are," prayed Wragg again.

"Nope, that ain't right," Wragg interrupted.

"Dixon," ouija corrected.

Decay-Proof Fence Posts

"My fencing is up to stay—thanks to Long-Bell Creosoted Yellow Pine Posts—the kind that last a lifetime."

This is the united opinion of farm owners everywhere who are now using Long-Bell Creosoted Posts instead of the ordinary kind that rot and decay after a few years.

CREOSOTED POSTS Yellow Pine

Our posts are cut from selected trees of slow growth, air dried and yard seasoned, and treated by the Long-Bell vacuum creosoting process until distilled creosote is forced into every part of the sap wood. The germ of decay is killed, every fibre of the post is protected—there's no decay.

MOTOR NOTES

MOTOR CARS ADD 40,000 EXECUTIVES TO BUSINESS

Manufacturers Report Benefits in Increased Time and Brain-Power.

Washington, D. C., Nov. 13.—One-third more brain-power is made available for the business world by automobile usage. This is the testimony of manufacturers in many lines in reply to a questionnaire sent out by the National Automobile Chamber of Commerce.

The equivalent of 37,431 men of executive caliber has been added to the business world through motor transportation, a gain in salary-values of \$262,865,000. These figures are arrived at by applying the one-third increase from car use to the number of men receiving \$10,000 to \$25,000 in the United States as reported in the latest internal revenue figures. The number of men in this class is reported to be 112,473, averaging in the neighborhood of \$15,000 a year.

This gain to the individual official and the saving in salary costs to manufacturing establishments tells but part of the story. There is a dearth of \$25,000-a-year men in the view of noted financiers. Consequently the car, in extending the usefulness of executives, is filling a sharply felt need in business.

The benefit from this service is well distributed. The automobile is not only a large customer for a variety of goods, but also car usage is so widespread that almost every line of industry receives creative aid from time-saving of cars.

The amount of aid which a manufacturer gains from this car naturally varies according to the circumstances and his own inclinations. Many executives reported that their automobiles added them very little, if any, in a business way. On the other hand, a manufacturer of ladies' waists in Cleveland reported: "Enables me to give two hours more time daily to business." The head of an electric plant in Sunnyside, N. Y., said: "It saves the salary of a man." The executive of a factory in Lakewood, O., reported a 500 per cent increase in efficiency from car use.

The use of automobiles instead of trolley or rail connection is higher in the manufacturing class than in most groups using cars. Forty-two per cent of their mileage is employed in this way. The cause for this is that many plants are located in outlying districts of the city, served by crowded trolleys. The executive has his home several miles from the plant in another section of the city and it is much shorter for him to use his car in going to the plant.

TAKING THE BUMPS.
Not only is it torture to the passenger in the rear of the automobile, but it helps shorten the life of the car, when you drive over tracks or road ruts without slackening up. The springs, the tires and rims get the brunt of such jolts, and then the careless motorist wonders why his cost of upkeep is so much higher than that of other motorists.

To make all riding pleasant and as cheap as possible, take ruts and tracks

cautiously. Throw out the clutch and apply the foot brake gently.

Where there is room, approach the place at an angle, especially in crossing railroad tracks. Both wheels, in such case, would not strike the bump at the same time, thus relieving the shock so that it will not be disagreeable to the riders in back.

KEEP OIL OFF FLOOR.

Every motorist should know that oil is a deadly enemy of rubber, and oil left on the garage floor will do more to destroy a set of tires than hundreds of miles of travel. Any oil dropped on the floor should, therefore, be cleaned off immediately.

TOUCH INTERRUPTER POINTS.

Constant use causes the interrupter points to become pitted with oxide and results in poor ignition. Touch the points with a so-called "emery board," used for manicuring, which will clear away the oxide and assure good ignition.

The motorist who does not use his machine for several days will find that, on starting out, with it, the gasoline will be slow to ignite. This is partly due to evaporation and partly to chemical changes in the gasoline that took place while the car was not in use.

The registration of automobiles in California so far this year is almost that for the whole of 1919. For the first half of 1920, the number of cars registered there was 476,938, not a thousand less than that of 1919.

OIL USE IN WINTER.

With the approach of cold weather it is well to remember that a much lighter grease in the transmission and

rear axle can be used. If the grease is too heavy it will not work into the bearings and gear sets. Some engines also require a lighter oil in winter than in warm weather.

Of all small motor vehicles, one has appeared in Europe claiming the title as smallest. It is a one-passenger car with a maximum speed of about 17 miles an hour. The power is supplied by dry batteries which have to be renewed every four hours.

AFTER A LONG RIDE.

One operation that should be repeated zealously after every 1,000 or 1,500 miles the automobile has been driven is to drain the engine of all oil, give it a thorough cleaning and refill with fresh oil. At the end of 2,500 miles service, a tire should be deflated, dismounted and cleaned of all soapstone and grit. The rims should be cleaned of rust and painted.

The automobile camping ground outside of Woodland, Cal., extended free lights, water, sewage and fuel at low rates, to tourists. So some of the city dwellers moved out and made the ground a permanent residence district. Which resulted in an ordinance limiting the camping time to one week. Now the place is again a camping ground.

GIVE IN STEERING WHEEL.

Never permit too much lost motion in the steering wheel. All parts of the steering apparatus from the wheels back should be kept tight and properly adjusted. It means easier control and greater assurance of safety.

HOW WILL THIS DO?

To Stop Auto Sooner Than Emergency Brake.

Of what good is your emergency brake when you are running even at a normal speed and a pedestrian suddenly darts out into your path? Application of both brakes at once could not stop the car in time.

It is just this kind of accident that

is feared most by the motorist because it results most likely in a fatality. The pedestrian will never learn, as every auto driver knows, therefore it is up to the motorist himself to forestall the folly of the man on the street with a device that would stop the automobile sooner than the emergency brake. That device is now a possibility and is available to every motorist at a nominal cost. The invention has never been brought out by any accessory firm, nor has it even been patented. It is intended for home construction only, and can be put up by any amateur mechanic. It is given here for what it is worth.

Get two molybdenum steel rods—the toughest obtainable—each about three inches longer than half the total width of the car. Each is to be attached in a sort of pincers arrangement in the center, and held in place by a clip attached to each spring, across the front of the car but between the wheels. The whole apparatus is carried by double rods, from the pincers center to a single rod which reaches up through the foot-board and becomes the special emergency brake handle.

With this arrangement, if a pedestrian surprises the motorist, the driver immediately pulls back the special brake handle, which opens the pincers and shoots out the bars into the spokes of the front wheels. That would stop the car faster than any friction brake!

Of course, you hate to think of what would happen to your machine. But what is a \$2,000, or even a \$5,000, car to a human life?

Mrs. Nabholz who has been making an extended visit at the home of her niece, Mrs. Ruth Ogilvie, returned to her home near Princeton Friday.

Miss Marguerite Carnahan was home from Sterling last week.

The Methodist aid society held their regular meeting at the home of Mrs. Wilder Richardson Friday afternoon, Nov. 2. In spite of the inclemency of the weather, there was a goodly number present and a tasty luncheon was served by the hostess.

The Lutheran Aid society met at the home of Mrs. D. W. Kutter Wednesday Nov. 3. There were about 25 present. A tasty supper served cafeteria style by the hostess was enjoyed.

A pleasant surprise was given Mrs. Josephine Merriman at the farm home Thursday evening, Oct. 28, when about 40 neighbors and relatives entered her home to help her celebrate her seventieth birthday anniversary. Various kinds of games and vocal and instrumental music were the diversions of the evening.

Following the social hour, a bounteous supper was served cafeteria style, which was furnished by the guests. The birthday cake made by Mrs. Wilbur Merriman was prettily decorated with red candles. The menu and decorations were no the Halloween order.

Mrs. Merriman was the recipient of many pretty and useful gifts in honor of the day for which she expressed her appreciation in a few fitting remarks, also declaring the whole affair as one of the most enjoyable of many years. Those present were Thomas

Caruth and family, Paul Greenwalt and wife, Wilbur Merriman and wife, Almasa Potter and son Ralph, Louis Henry and family, Frank Davidson and family, Joe Barr and wife, Mr. Nellis, Ella Grisham, Eva Isola, Merriman, Rolland Richardson, Charles Merriman, grown watermelon was furnished by Charles Merriman. To say that the company enjoyed them would be putting it mildly. The party broke up at a late hour all wishing the hostess many happy returns of the day.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, enemic-looking souls with puffy, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray. Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

REPORT MANY CASES OF RHEUMATISM NOW

Says we must keep feet dry, avoid exposure and eat less meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

SUPPLEMENTAL SPECIAL ASSESSMENT NOTICE

Under Local Improvement Ordinance No. 191 (Supplemental), Series of 1919. Notice is hereby given to all persons interested, that the Council of the City of Dixon, a municipal corporation, in the County of Lee and State of Illinois, has by City of Dixon, Illinois, Local Improvement Ordinance No. 191 (Supplemental), Series of 1919, passed by the Council of the said City of Dixon, on the 28th day of September, A. D. 1920, and approved by the Mayor of said City of Dixon, on the 28th day of September, A. D. 1920, provided for the levy of a Supplemental Special Assessment, to pay a deficit arising from the construction of the vitrified tile pipe sewer, with manholes, house connection laterals and catch basins, on Jackson Avenue from the center line of Seventh street, southerly to a point three hundred forty (340) feet south of the center line of Ninth street, in the City of Dixon, Illinois, in the County of Lee and State of Illinois, Local Improvement Ordinance Number 191, Series of 1919.

That said Ordinance is now on file in the office of the City Clerk of the City of Dixon, Illinois, that application has been made to the County Court of Lee County, Illinois, for a Supplemental Special Assessment, to pay the deficit arising out of the construction of said improvement according to benefits, as provided by law and said Ordinance; that a Supplemental Special Assessment therefor has been made and returned to said Court, and that the final hearing thereon will be held before said court in the County Court Room in the court house in the City of Dixon, in the County of Lee and State of Illinois, at nine o'clock in the forenoon on the twenty-sixth day of November, A. D. 1920, or as soon thereafter as the business of the court will permit.

All persons desiring may file objections to said Supplemental Special Assessment in the said court before said time and may appear at said hearing and make defense.

Said Supplemental Special Assessment is payable in eight (8) annual installments, and all installments bear interest at the rate of five per cent per annum, according to law, until paid.

Dated at Dixon, Illinois, this eighth day of November, A. D. 1920.

A. H. HANNEKEN, Commissioner.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

PUBLISH MY LETTER

Says Mrs. Ovenstein, So Other Suffering Women May Learn How to Get Well.

Chicago, Ill.—"I suffered for four years with pains in my sides, hips and legs and a terrible headache. I could not do any work at all. I was treated by many physicians, but they did not help me. I read in one of your books where other women had been helped by Lydia E. Pinkham's Vegetable Compound and it helped me very much so that now I can do everything in the house. I have told my friends about your wonderful Vegetable Compound and you have my permission to publish my letter so other women who suffer may learn how to get well."—Mrs. IDA OVENSTEIN, 902 S. Marshfield Ave., Chicago, Ill.

This good old fashioned remedy is made from native roots and herbs and contains no narcotics or harmful drugs. If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.
